

AM Consulting & Education zorganizuje dla Ciebie wyjazd na KURS JĘZYKOWY i PRAKTYKĘ do Wielkiej Brytanii lub Hiszpanii

INTERNSHIPS / WORK PLACEMENT PROGRAMME (2 weeks of preparatory English language course + 3 months of internship)

GREAT BRITAIN

Would you like to gain experience of working within a British company?

The internship is an unpaid work placement at a UK organization where you will carry out duties according to your qualifications, prior work experience and language ability (minimum requirement IELTS 5.0 or equivalent). The 2 weeks preparation English course takes place in Glasgow. Work placement can be arranged in Glasgow or in other British cities.

You should expect to be doing some basic jobs to start with, however you will be given more responsibilities by the company as you prove yourself capable.

This offers you the opportunity to develop the essential skills for working in an English speaking country: communication skills, people skills, time management, cultural understanding, etc. This is an excellent way to develop your English ability and improve your future career prospects at home or abroad.

Please send a comprehensive CV with your application and a letter of introduction explaining what type of work experience would you like and why and a short description of yourself. This helps us arrange a placement suited to the trainee's needs. At the end of the work Experience the students receive a report. Applicants must send all documents in English.

SPAIN

Are you interested in an unpaid job in a Spanish company to enhance your professional life?

This programme provides an opportunity to gain new experiences, to develop Business skills and to build an impressive CV. The type of placement offered depends on the trainee's qualifications, education, experience and language ability. Students must be of intermediate level of Spanish. In case of more advanced level, you do not have to take Spanish course – you can just take internship.

The 2 weeks preparation Spanish course takes place in Malaga or other Spanish cities. Placements are usually made in small to medium sized companies in Malaga and the Costa del Sol area (Torremolinos, Benalmadena etc.) mainly in: Travel agencies, Car rentals, Real estates, Newspapers, Hotel administration, Guides associations, Advertising, Marketing, Sales etc. In other cities (Barcelona, Granada, Madrid, Salamanca, Sevilla, Valencia) there are available also many other jobs (it is more expensive, though).

Please send a comprehensive CV with your application and a letter of introduction explaining what type of work experience would you like and why and a short description of yourself. This helps us arrange a placement suited to the trainee's needs. The Work Experience Officer will contact suitable companies and information of the companies will be sent to the trainee. We confirm the acceptance of the student on the work experience course. The student may be requested to call the Experience Officer for a short interview to discuss his/her needs and options available.

The internship is an unpaid work placement. Once the trainee and the company agree to the placement we finalize the arrangements and inform about the accommodation, if required. The Work Experience Officer keeps in contact with the trainee to monitor the progress. At the end of the work Experience the students receive a report.

Applicants must send all documents in Spanish.
